### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William R. McClellan on December 21, 2005.

The application has been amended as follows:

In claim 45, line 1, "claim 37" has been changed to "claim 44".

In claim 46 (line 4) and claim 53 (line 3), "a control means" has been changed to "a control means for controlling transmission".

2. The following is an examiner's statement of reasons for allowance: the prior art fails to show or suggest a method or modem for use with a very high rate digital subscriber line transmission system for controlling transmission adapted to produce an energy loading  $E_k$  for a  $k^{\text{th}}$  sub-carrier and adjusting a constant  $\lambda$  by the equations shown on page 2 of the specification in order reduce the transmit power of modems on relatively short wires and enables modems on substantially longer wires to transmit at higher bit rates.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to YOUNG T. TSE whose telephone number is (571) 272-3051. The examiner can normally be reached on Monday-Thursday and alternative Friday.
